

Subject Index: Volume 21, 1996

- Abdominal surgery
 epidural analgesia using morphine with or without fentanyl, 175
 preoperative spinal bupivacaine for, 99
- Acupuncture, 361
- Adverse effects, transient radicular irritation after bupivacaine spinal anesthesia, 26
- Afferent nerve activity, in behavioral response to formalin test, 226
- Age, epidural space anatomy and, 395
- Air bubbles, from inhaled nitrous oxide, 144
- Alfentanil, in eye blocks, 171 (letter)
- Alpha-adrenergic receptors, spinal clonidine failure for prostate resection and, 419
- Ambulatory surgery, wound infiltration with ketorolac versus intravenous regional anesthesia, 565
- Anatomy
 considerations, for lateral sciatic nerve block, 414
 of epidural space, examination by cryomicrotome section, 395
 retrocural, for celiac plexus block in pancreatic cancer, 407
- Anesthesiologists, obstetric anesthesia and, 49
- Anesthesiology competence evaluation, regional anesthesia learning curve and, 182
- Anesthesiology education, regional anesthesia learning curve for, 182
- Anesthetic technique
 brachialis motor point selective block, 89
 for combined spinal-epidural anesthesia, 599 (letter)
 dose response during continuous epidural infusion, 14
 high spinal anesthesia after epidural test dose, 119
 for incisional morphine, after herniotomy under spinal anesthesia, 93
 needle redirection/position during neural block, 30
 nitrous oxide inhalation, expansion of epidural air bubbles and, 144
 for spinal anesthesia, volume versus concentration and, 112
 for transarterial axillary block, 273 (letter)
 unexpected neurologic deficit after spinal anesthesia and, 355
 wound infiltration with ketorolac versus intravenous regional anesthesia and, 565
- Angina, cardiac arrest in epidural anesthesia recovery and, 253
- Anticoagulation
 central neural block and, 529
 oral prophylaxis, for epidural catheter removal, 517
 postoperative with epidural analgesia, epidural hematoma after, 272 (letter)
- Antimicrobial activity, of local anesthetics, 239
- Antiplatelet prophylaxis, for epidural catheter removal, 517
- Arachnoid cyst, with preeclampsia and triplets, epidural analgesia for, 592
- Arachnoiditis
 epidural injections, complications with, 149
 and Guillain-Barré syndrome after postoperative epidural analgesia, 486
- Arrhythmias, bupivacaine-induced, 243
- Arthrogryposis multiplex congenita, continuous spinal anesthesia for Cesarean delivery in, 477
- Articaine, *in vitro* metabolism by serum esterases, 576
- Aspirin, central neural block and, 529
- Asystole, bupivacaine-induced, 243
- Atraucan spinal needle
 postdural puncture headache and, 461
in vitro comparison with other needles for fluid leakage, 139
- Axillary block, transarterial approach, 273 (letter)
- Back pain, after spinal anesthesia, 461
- Betadine, postdural puncture headache and, 375 (letter)
- Biological models, for epidural space depth prediction in obstetric analgesia, 451
- Blindness, status epilepticus amauroticus secondary to meningitis and, 595
- Blood pressure, in laboring parturients, subarachnoid fentanyl and, 103
- Book reviews
Clinical Orthopedic Anesthesia (Tetzlaff), 500
Management of Migraine (Spierings), 381
- Brachialis motor point, selective block of, 89
- Brachial plexus block
 by dilution, accelerated recovery from, 600 (letter)
 for shoulder dislocation, 373 (letter)
- Brachial plexus injury, after subclavian vein catheterization, 163
- Bradycardia, subarachnoid neostigmine during spinal bupivacaine and, 586
- Bupivacaine
 antinociceptive and motor-blocking efficacy of, 318
 bactericidal activity of, 239
 cardiotoxicity, enhancement by nitric oxide synthesis inhibition, 243
 epidural
 effect on midazolam hypnotic requirements, 209
 epidurograms for long-term catheter patients, 61
 with essential thrombocythemia, 525
 evaluation of, 124
 lumbar infusion of, 14
 midazolam hypnotic requirements and, 209
 plasma levels in kidney transplant recipients, 308

Bupivacaine (*Continued*)

- for femoral nerve block, 292
- interscalene block, 166 (letter), 167 (letter)
- spinal
 - analgesic requirements after abdominal surgery and, 281
 - preoperative, postoperative morphine requirement and, 99
 - subarachnoid neostigmine during, 586
 - with sufentanil, and epinephrine, 191
 - transient radicular irritation after, 26
- spread into epidural caudal space, injection rate and, 442
- subarachnoid
 - hemodynamic changes, versus single-dose anesthesia, 298
 - hyperbaric, neurotoxicity of, 234
 - serotonin cerebrospinal fluid levels and, 446
 - with sufentanil, for labor analgesia, 424
- Calcium, cytoplasmic, ethanol effects on, 6
- Cancer pain
 - epidural versus subarachnoid and intracerebroventricular opioids, 542
 - epidurograms for long-term epidural catheter patients, 61
 - patient-administered sphenopalatine ganglion block for, 68
 - pediatric, comparison of EMLA application techniques for, 557
 - peripheral nerve catheterization for, 482
 - retrocrural anatomy for celiac plexus block and, 407
- Cardiac arrest, from coronary spasm during epidural anesthesia recovery, 253
- Cardiac index, in laboring parturients, subarachnoid fentanyl and, 103
- Cauda equina syndrome, from subarachnoid hyperbaric bupivacaine, 234
- Caudal anesthesia, local anesthetic spread related to injection rate, 442
- Causalgia, psychological characteristics of, 202
- Celiac plexus block
 - effect on cytoplasmic calcium in arterial smooth muscle and endothelium, 6
 - retrocrural anatomy with or without pancreatic cancer, 407
- Cell culture, effect of ethanol on arterial smooth muscle, 6
- Central neural block, hemostasis-altering drugs and, 529
- Cerebrospinal fluid, lidocaine concentration after spinal anesthesia, 112
- Cervical plexus blocks, combined superficial and deep, 168 (letter)
- Cesarean delivery
 - continuous spinal anesthesia in arthrogryposis multiplex congenita, 477
 - morphine-induced pruritus, inhibition by droperidol, 312
- Chorioamnionitis, safety of spinal and epidural anesthesia in, 436
- Clinical trial design, for acupuncture research, 361

Clonidine

- with lidocaine, for retrobulbar block in cataract surgery, 569
- spinal failure, for transurethral resection of prostate, 419
- subarachnoid, for refractory reflex sympathetic dystrophy, 249
- C1 nerve, dermatomal distribution and, 167 (letter)
- Combined spinal-epidural anesthesia
 - comments on, 275 (letter)
 - needles, flow rate comparison for, 378 (letter)
 - technique for, 599 (letter)
- Compartment block, 270 (letter)
- Complex regional pain syndrome, psychological characteristics of, 202
- Complications
 - brachial plexus injury after subclavian vein catheterization, 163
 - of central neural block, 197
 - of epidural anesthesia
 - Guillain-Barré syndrome and arachnoiditis after, 486
 - with steroid injections, 149
 - test dose, high spinal anesthesia after, 119
 - from patient-controlled analgesia, 338
 - unexpected neurologic deficit after spinal anesthesia, 355
- Contamination, needle tips after subarachnoid puncture, 35
- Continuous infusion
 - epidural
 - dose response of sensory and motor block during, 14
 - during labor, 373 (letter)
 - lumbar, effect on sensory and motor block, 14
 - femoral nerve block, for total knee arthroplasty, 292
 - lumbar plexus blocks and single-shot sciatic nerve block, 287
 - spinal
 - for Cesarean delivery with arthrogryposis multiplex congenita, 477
 - hemodynamics changes after, 298
 - monitoring peripheral nerve stimulator for, 480
 - volume versus concentration for, 112
- Conversion disorder, after spinal anesthesia, 355
- Coronary artery disease, cardiac arrest in epidural anesthesia recovery and, 253
- Corticosteroids, epidural injections, complications with, 149
- Cranial nerves, complications after central neural block, 197
- Craniectomy, persistent headache after, epidural blood patch for, 602 (letter)
- Cruciate ligament reconstruction, combined continuous lumbar plexus and sciatic nerve block for, 287
- Cryomicrotome section, for epidural space anatomy examination, 395
- Cytokines, response to surgical trauma and anesthesia type, 470
- Delivery. *See* Cesarean delivery; Obstetric anesthesia
- Dentistry, articaine *in vitro* metabolism and, 576
- Dermatome distribution, C1 nerve and, 167 (letter)

Dogs

- antinociceptive and motor-blocking efficacy of epidural anesthesia, 318
- lidocaine effects on pulmonary circulation during hyperoxia and hypoxia, 327
- neurotoxicity of subarachnoid hyperbaric bupivacaine, 234

Droperidol, inhibition of epidural morphine-induced pruritus, 312

Dural puncture, with Arrow FlexTip Plus catheter, 75 (letter)

Elderly, lidocaine-clonidine retrobulbar block for cataract surgery in, 569

Electromyography, of Guillain-Barré syndrome and arachnoiditis after epidural anesthesia, 486

Emesis, combined continuous lumbar plexus and single-shot sciatic nerve blocks and, 287

EMLA

- application techniques, comparison in pediatric patients, 557

for pain reduction of spinal needle insertion, 561

Endorphins, acupuncture and, 361

Endothelium, ethanol effects on, 6

Endothoracic fascia, local anesthetic injection in, 304

Epidural analgesia

- with arachnoid cyst, preeclampsia and triplets, 592
- auditory, ocular, and facial complications, 197
- comparison of, 191
- continuous infusion during labor, 373 (letter)
- epidural space depth prediction in obstetric population, 451

Guillain-Barré syndrome and arachnoiditis after, 486

with ketamine, as adjunct for morphine, 508, 534

with lidocaine, bilateral radicular pain after, 600 (letter)

- with morphine. *See* Morphine, epidural
- in parturient with essential thrombocytopenia, 525
- patient-controlled, pressure sores from, 338
- with phenol, spinal cord injury after, 374 (letter)
- steroid injections, complications with, 149

Epidural anesthesia. *See also* Combined spinal-epidural anesthesia

- antinociceptive and motor-blocking efficacy of, 318
- with bupivacaine. *See* Bupivacaine, epidural
- epidural hematoma after, 342
- evaluation of, 124
- with general anesthesia for laparoscopic cholecystectomy, 465
- hemostasis-altering drugs and, 529
- modulation of protein metabolism in surgical trauma, 430
- oral anticoagulant prophylaxis for catheter removal, 517
- posterior epidural space depth, clinical measure of, 456
- recovery, cardiac arrest caused by coronary spasm during, 253
- removal of knotted epidural catheter, 71
- with ropivacaine and bupivacaine, effect on sensory and motor block, 14
- safety in parturients with chorioamnionitis, 436

test dose, high spinal anesthesia after, 119

Epidural blood patch

- for persistent headache after retromastoid craniectomy, 602 (letter)
- for postdural puncture headache following lumbar sympathetic block, 347

Epidural catheter

Arrow FlexTip

- dural puncture with, 75 (letter)
- experience with, 607 (letter)
- avoiding disconnection from connector, 607 (letter)
- combined end-multiple lateral holes in, 271 (letter)
- knotted, 71, 606 (letter)
- long-term, epidurograms for, 61
- nylon
 - defective, 377 (letter)
 - stretching on removal, 379 (letter)
- removal
 - knotted, 71
 - oral anticoagulant prophylaxis for, 517
 - stretching during, 379 (letter)

Epidural hematoma

- after epidural analgesia with postoperative anticoagulation, 272 (letter)
- after epidural anesthesia, 342

Epidural space

- air bubble expansion, after nitrous oxide inhalation, 144
- air infection assessment by transesophageal echocardiography, 77 (letter)
- anatomy, examination by cryomicrotome section, 395
- depth prediction in obstetric population, 451
- posterior depth, clinical measure of, 456

Epidurograms, for long-term epidural catheter patients, 61

Epinephrine

- effect on maternal glucose levels during epidural anesthesia, 312
- with hyaluronidase, effect on pH of local anesthetic solutions, 605 (letter)
- for spinal analgesia, with bupivacaine, and sufentanil, 191

Essential thrombocytopenia, epidural analgesia in parturient and, 525

Esterases, saturable *in vitro* metabolism of articaine and, 576

Ethanol, effect on cytoplasmic calcium in arterial smooth muscle and endothelium, 6

Ethyl chloride

- for assessing sensory block, 78 (letter)
- cutaneous application, 77 (letter)

Evoked potentials, for evaluation of epidural anesthesia, 124

Extended unilateral anesthesia, for herniorrhaphy, 304

Femoral nerve block, for total knee arthroplasty, 292

Fentanyl

- epidural, with essential thrombocytopenia, 525
- with morphine, for epidural analgesia, 175
- subarachnoid, hemodynamic effects of, 103

Formalin test, peroneal afferent nerve discharges in, 226

General anesthesia

- with epidural anesthesia, for laparoscopic cholecystectomy, 465
 - versus spinal anesthesia, effects on postoperative pain and analgesia, 281
- Geriatric anesthesia, lidocaine-clonidine for retrobulbar block in cataract surgery, 569
- Guillain-Barré syndrome, and arachnoiditis after postoperative epidural analgesia, 486
- Gynecologic surgery, preoperative spinal bupivacaine for, 99

Halothane anesthesia

- cytokine response to acute stress and, 470
- mepivacaine effects on renal sympathetic nerve activity during, 41

Hand surgery, wound infiltration with ketorolac versus intravenous regional anesthesia, 565

Headache. *See also* Postdural puncture headache
persistent after retromastoid craniectomy, epidural blood patch for, 602 (letter)
pseudo-spinal, 358

Health care financing, outlook for, 474

Hematoma. *See also* Epidural hematoma
hemostasis-altering drugs and central neural block and, 529

spinal, oral anticoagulant prophylaxis for epidural catheter removal and, 517

Hemodynamic changes, after single-dose and incremental subarachnoid anesthesia, 298

Hemorrhoidectomy, epidural morphine, nalbuphine versus saline as adjuvant for, 214

Hemostasis-altering drugs. *See* Anticoagulation

Heparin

- central neural block and, 529
- epidural hematoma after epidural anesthesia and, 342

Herniorrhaphy

- extended unilateral anesthesia for, 304
- incisional morphine under spinal anesthesia for, 93

History, of acupuncture, 361

5-HT receptors, role of sumatriptan in peripheral pain mechanisms and, 219

Hyaluronidase, with epinephrine, effect on pH of local anesthetic solutions, 605 (letter)

Hyperoxic ventilation, lidocaine effects on, 327

Hypotension, subarachnoid neostigmine during spinal bupivacaine and, 586

Hypoxic ventilation, lidocaine effects on, 327

Iliac crest bone graft pain, 77 (letter)

Incremental local anesthetic doses, hemodynamics changes after, 298

Indirect calorimetry, of protein metabolism modulation in epidural analgesia, 430

Infiltration of EMLA, pain reduction for spinal needle insertion and, 561

Inguinal hernia repair. *See* Herniorrhaphy

Inguinal paravascular block, for post-knee surgery analgesia, 287

Inhaled anesthesia, expansion of epidural air bubbles and, 144

Injection rate, local anesthetic spread into epidural caudal space in children, 442

Interleukin-6, response to surgical trauma and anesthesia type, 470

International Symposium on Regional Anesthesia (ISRA), abstracts, 383

Interscalene block

- with bupivacaine, 166 (letter), 167 (letter)
- low-volume, for perioperative shoulder pain, 371 (letter)

Intracerebroventricular opioids, versus epidural and subarachnoid analgesia, 542

Intraocular pressure, lidocaine-clonidine, for retrobulbar block in cataract surgery, 569

Intrapopliteal posterior block, for tibial nerve, 601 (letter)

Intravenous regional anesthesia, versus wound infiltration for ketorolac, 565

Ketamine, potentiation of morphine for epidural postoperative pain control, 534

Kidney failure, arteriovenous fistula insertion/revision, antebrachial nerve blocks for, 2

Kidney transplantation, bupivacaine plasma levels after epidural administration, 308

Knee surgery

- combined continuous lumbar plexus and sciatic nerve block for, 287
- femoral nerve block for, 292

Labor analgesia. *See* Obstetric analgesia

Laparoscopic surgery, epidural and general anesthesia for pain management in, 465

Laser stimulation, for evaluation of epidural anesthesia, 124

LASRA. *See* Latin American Society of Regional Anesthesia

Latin American Society of Regional Anesthesia (LASRA), selected abstracts from second scientific meeting, 261

Lidocaine

- bactericidal activity of, 239
- with clonidine, for retrobulbar block in cataract surgery of elderly, 569
- effects on pulmonary circulation during hyperoxia and hypoxia in the dog, 327
- with ketorolac for wound infiltration versus intravenous regional anesthesia, 565
- for patient-administered sphenopalatine ganglion block, 68
- spinal
 - volume versus concentration for, 112
 - versus meperidine for postpartum tubal ligation, 84
 - versus EMLA for pain reduction of spinal needle insertion, 561

Local anesthetics. *See also specific local anesthetics*

- antimicrobial activity of, 239
- antinociceptive and motor-blocking efficacy, 318
- effect on sensory and motor block, 14
- medial and lateral antebrachial cutaneous nerve blocks, 2
- pain sensations on intradermal injection of, 374 (letter)

- pH, effect of hyaluronidase addition to epinephrine, 605 (letter)
- saturable *in vitro* metabolism of articaine by serum esterases, 576
- spread into epidural space, injection rate and, 442
- Loss-of-resistance technique, expansion of epidural air bubbles and, 144
- Lumbar puncture
- for epidural labor anesthesia, 350
 - needle tips after, 35
 - postdural puncture headache, epidural blood patch for, 347
 - in vitro* comparison of fluid leakage after, 139
- Meningitis, secondary status epilepticus amauroticus as cause of blindness, 595
- Meperidine
- for spinal anesthesia, 81
 - versus lidocaine for spinal anesthesia for postpartum tubal ligation, 84
- Mepivacaine
- bactericidal activity of, 239
 - for extended unilateral anesthesia, 304
 - sympathetic effects of, 41
- Meta-analysis, problems with, 514
- Michaelis-Menten kinetics, of articaine saturable *in vitro* metabolism, 576
- Midazolam, hypnotic requirements, effect of epidural bupivacaine on, 209
- Minnesota Multiphasic Personality Inventory, 202
- Money sign, 166 (letter)
- Morphine
- epidural
 - induced pruritus, inhibition by droperidol, 312
 - ketamine as adjuvant for, 508, 534
 - nalbuphine versus saline as adjuvant for, 214
 - with or without fentanyl, 175
 - epidurograms for long-term epidural catheter patients, 61
 - incisional, following inguinal herniotomy under spinal anesthesia, 93
 - induced pruritus, inhibition by droperidol, 312
 - postoperative requirements, spinal versus general anesthesia and, 281
 - with and without fentanyl for epidural analgesia, 175
- Motor point block, brachialis, 89
- Musculocutaneous nerve block, selective block of brachialis motor point, 89
- Myofascial pain syndrome, versus reflex sympathetic dystrophy, 202
- Myofascial trigger points, pseudo-spinal headaches and, 358
- Nalbuphine, versus saline as adjuvant for epidural morphine, 214
- Needles. *See also specific types of spinal needles*
- back pain and postdural puncture headache after spinal anesthesia, 461
 - double-hole pencil-point, 74 (letter)
 - flow rate comparison, 378 (letter)
 - immobile, for retrobulbar block, 377 (letter)
 - redirection and needle position during neural block, 30
 - for spinal anesthesia in morbidly obese patient, 173 (letter)
 - tips, after subarachnoid puncture, 35
 - tissue coring incidence with, 582
 - in vitro* comparison of fluid leakage after dural puncture, 139
- Neostigmine, blood pressure and heart rate during spinal bupivacaine and, 586
- Nerve block. *See also specific nerve blocks*
- antebrachial, medial and lateral, 2
 - central, cranial nerve complications after, 197
 - needle redirection/position during, 30
- Neurogenic inflammation, sumatriptan dual effect on, 219
- Neurologic complications, after spinal anesthesia, 355
- Neurolytic agent, effect on cytoplasmic calcium in arterial smooth muscle and endothelium, 6
- Neurotoxicity, of subarachnoid hyperbaric bupivacaine, 234
- Nitric oxide synthesis inhibition, bupivacaine cardiotoxicity and, 243
- N^w-Nitro-L-arginine methyl ester, bupivacaine cardiotoxicity and, 243
- Nitrous oxide
- inhalation, expansion of epidural air bubbles and, 144
 - mepivacaine effects on renal sympathetic nerve activity during, 41
- NMDA antagonists, differential actions, pain mechanisms and, 508
- Nociceptors
- peroneal afferent nerve discharges in behavioral response to formalin test, 226
 - serotonin cerebrospinal fluid levels, subarachnoid bupivacaine and, 446
- Obesity, modified Tuohy needle for spinal anesthesia in, 173 (letter)
- Obstetric analgesia
- epidural
 - continuous infusion, 373 (letter)
 - with essential thrombocytopenia, 525
 - with preeclampsia, arachnoid cyst and triplets, 592
 - epidural space depth prediction for, 451
 - safety of spinal and epidural anesthesia in chorioamnionitis, 436
 - spinal, with bupivacaine, sufentanil and epinephrine, 191
 - with spinal muscular atrophy and vocal cord paralysis, 350
 - subarachnoid
 - fentanyl, hemodynamic effects of, 103
 - sufentanil-bupivacaine, 424
- Obstetric anesthesia
- anesthesiologists and, 49
 - high spinal anesthesia after epidural test dose, 119
 - subarachnoid fentanyl, hemodynamic effects of, 103
- Ophthalmic surgery, lidocaine-clonidine for retrobulbar block in, 569

- Opioids. *See also* Morphine
- epidural, versus subarachnoid and intracerebroventricular administration, 542
 - epidurograms for long-term epidural catheter patients, 61
 - incisional morphine, following inguinal herniotomy under spinal anesthesia, 93
- Pain management. *See also specific types of pain and/or specific analgesic techniques*
- acupuncture for, 361
 - bilateral radicular, epidural analgesia with lidocaine for, 600 (letter)
 - chronic, epidurograms for long-term epidural catheter patients, 61
 - combined continuous lumbar plexus and sciatic nerve block for, 287
 - iliac crest bone graft, 77 (letter)
 - patient-administered sphenopalatine ganglion block for, 68
 - pediatric, comparison of EMLA application techniques for, 557
 - perioperative shoulder, interscalene brachial plexus block for, 371 (letter)
 - sensations on intradermal injection of local anesthetics, 374 (letter)
- Pancreatic cancer, retrocrural anatomy for celiac plexus block, 407
- Parasacral sciatic nerve block, for post-knee surgery analgesia, 287
- Parietal thoracic fascia, local anesthetic injection in, 304
- Patient-controlled analgesia, pressure sores from, 338
- Pediatric patients
- comparison of EMLA application techniques, 557
 - local anesthetic spread into epidural caudal space for two rates of injection, 442
- Peribulbar block, versus retrobulbar block, 171 (letter)
- Peripheral C-fibers, sumatriptan effect on peripheral neurogenic inflammation and, 219
- Peripheral nerve catheterization, for cancer pain, 482
- Peripheral nerve stimulator, for monitoring continuous spinal anesthesia, 480
- Peripheral receptors, incisional morphine, following inguinal herniotomy under spinal anesthesia, 93
- Peripheral vascular disease, epidural hematoma after epidural anesthesia, 342
- Peroneal nerve, afferent discharges in behavioral response to formalin test, 226
- Plasma extravasation, sumatriptan inhibition of, 219
- Popliteal fossa, sciatic nerve block through, anatomic considerations for, 414
- Postdural puncture headache, 375 (letter)
- and back pain after spinal anesthesia with Quincke and Atraucan needles, 461
 - betadine factor, 375 (letter)
 - epidural blood patch for, 347
- Postoperative period
- efficacy of epidural and general anesthesia for laparoscopic cholecystectomy, 465
 - epidural analgesia, morphine with or without fentanyl for, 175
 - epidural analgesia in, Guillain-Barré syndrome, arachnoiditis and, 486
 - epidural hematoma after epidural analgesia and anticoagulation, 272 (letter)
 - Guillain-Barré syndrome and arachnoiditis after epidural anesthesia, 486
 - incisional morphine, following inguinal herniotomy under spinal anesthesia, 93
 - ketamine potentiation of morphine for epidural analgesia, 534
 - spinal analgesia
 - preoperative bupivacaine for, 99
 - versus general anesthesia, 281
 - wound infiltration with ketorolac versus intravenous regional anesthesia, 565
- Postpartum tubal ligation, spinal anesthesia, meperidine versus lidocaine for, 84
- Preeclampsia, with arachnoid cyst and triplets, epidural analgesia for, 592
- Pre-emptive analgesia
- with bupivacaine, postoperative morphine requirement and, 99
 - with fentanyl, 274 (letter)
 - postoperative abdominal surgery pain and, 281
- Pregnancy. *See* Obstetric analgesia; Obstetric anesthesia
- Preoperative local anesthesia, postoperative analgesia and, 277
- Pressure sores, from patient-controlled epidural analgesia, 338
- Prostate resection, spinal anesthesia failure with clonidine, 419
- Protein metabolism modulation, in epidural analgesia for surgical trauma, 430
- Pruritus, morphine-induced, inhibition by intravenous droperidol, 312
- Pseudo-spinal headache, 358
- Psychological characteristics, of myofascial pain syndrome versus reflex sympathetic dystrophy, 202
- Pulmonary circulation, effects of lidocaine on during hyperoxia and hypoxia, 327
- Quincke needle
- for spinal anesthesia, postdural puncture headache after, 461
 - tissue coring incidence with, 582
 - versus other needles, *in vitro* comparison of fluid leakage after, 139
- Radicular pain, bilateral, after epidural lidocaine, 600 (letter)
- Recovery, from brachial plexus block, 600 (letter)
- Reflex sympathetic dystrophy
- refractory, subarachnoid clonidine for, 249
 - versus myofascial pain syndrome, psychological characteristics of, 202
- Regional anesthesia. *See also specific regional anesthetic techniques*
- anatomic considerations for lateral sciatic nerve block, 414
 - learning curve, 182
 - needle tips after subarachnoid puncture, 35

- in patient receiving thromboprophylaxis, 503
- peripheral nerve catheterization for cancer pain, 482
- retrocral anatomy for celiac plexus block in pancreatic cancer, 407
- selective block of brachialis motor point, 89
- subarachnoid bupivacaine, serotonin cerebrospinal fluid levels and, 446
- Renal sympathetic nerve, mepivacaine effects during nitrous oxide and nitrous oxide-halothane anesthesia, 41
- Residents, regional anesthesia learning curve, 182
- Retrobulbar block
 - with lidocaine-clonidine, for cataract surgery in elderly, 569
 - using immobile needle, 377 (letter)
 - versus peribulbar block, 171 (letter)
- Revascularization surgery, epidural hematoma after epidural anesthesia for, 342
- Ropivacaine
 - antinociceptive and motor-blocking efficacy, 318
 - epidural, lumbar infusion of, 14
- Saphenous nerve block, new approach for, 490 (letter)
- Sciatic nerve block, through popliteal fossa, anatomic considerations for, 414
- Sedation, from combined continuous lumbar plexus and single-shot sciatic nerve blocks, 287
- Seizure, bupivacaine-induced, 243
- Sensory block. *See* Nerve block
- Serotonin, cerebrospinal fluid levels, subarachnoid bupivacaine and, 446
- Serotonin agonist, dual effect on peripheral neurogenic inflammation, 219
- Shoulder dislocation, analgesic brachial plexus block for, 373 (letter)
- Single-injection anesthesia
 - with continuous lumbar plexus block, 287
 - hemodynamic changes after, 298
 - for total knee arthroplasty, 292
- Skin
 - complications, from patient-controlled analgesia, 338
 - depth prediction in epidural space for obstetric analgesia, 451
- Somatosensory evoked potentials, for evaluation of epidural anesthesia, 124
- Sphenopalatine ganglion block, patient-administered, 68
- Spinal analgesia
 - auditory, ocular, and facial complications, 197
 - comparison of, 191
 - during labor with low-dose bupivacaine, sufentanil, and epinephrine, 191
 - with subarachnoid sufentanil-bupivacaine for advanced labor, 424
- Spinal anesthesia. *See also* Combined spinal-epidural anesthesia
 - changes in lower extremity venous capacitance during, 376 (letter)
 - failure with clonidine for transurethral resection of prostate, 419
 - hemostasis-altering drugs and, 529
 - high, after epidural test dose, 119
 - incidence of tissue coring in, 582
 - lidocaine for, 84
 - and lower-abdominal laparotomy, cytokine response to acute stress and, 470
 - meperidine for, 81, 84
 - needle insertion, EMLA for pain reduction of, 561
 - needle tips after, 35
 - neurotoxicity of subarachnoid hyperbaric bupivacaine, 234
 - in obese patient, modified Tuohy needle for, 173 (letter)
 - oral anticoagulant prophylaxis for epidural catheter removal, 517
 - postdural puncture headache after, 461
 - preoperative bupivacaine, 99
 - safety in parturients with chorioamnionitis, 436
 - transient radicular irritation after, 26
 - unexpected neurologic deficit after, 355
 - in vitro* comparison of fluid leakage after dural puncture, 139
 - volume versus concentration, 112
 - versus general anesthesia, effects on postoperative pain and analgesia, 281
- Spinal cord injury, after epidural phenol, spinal vasculature thrombosis and, 374 (letter)
- Spinal-epidural-general anesthesia, 608 (letter)
- Spinal muscular atrophy, labor analgesia/anesthesia and, 350
- Spinal opiates, differential actions, pain mechanisms and, 508
- Spinal vasculature thrombosis, spinal cord injury after epidural phenol and, 374 (letter)
- Splanchnic block, retrocral anatomy with or without pancreatic cancer, 407
- Sprotte needle
 - flow rate comparison, 378 (letter)
 - new design for, 172 (letter)
 - versus other needles, *in vitro* comparison of fluid leakage after, 139
- Staphylococcus aureus*, antimicrobial activity of local anesthetics, 239
- Status epilepticus amauroticus, secondary to meningitis in postpartum blindness, 595
- Sternocleidomastoid muscle, pseudo-spinal headaches and, 358
- Stroke index, in laboring parturients, subarachnoid fentanyl and, 103
- Subarachnoid analgesia
 - with bupivacaine, serotonin cerebrospinal fluid levels and, 446
 - with clonidine for refractory reflex sympathetic dystrophy, 249
 - epidural injections, complications with, 149
 - with fentanyl, hemodynamic effects of, 103
 - with neostigmine during bupivacaine spinal anesthesia, 586
 - opioids, versus epidural and intracerebroventricular administration, 542
 - with sufentanil-bupivacaine for advanced labor, 424
- Subarachnoid anesthesia, posterior epidural space depth, clinical measure of, 456

- Subclavian vein catheterization, attempt, brachial plexus neuropathy after, 163
- Subdural space, extent of, 75 (letter)
- Sufentanil
 - for spinal analgesia, with bupivacaine, and epinephrine, 191
 - with subarachnoid bupivacaine for labor analgesia, 424
- Sumatriptan, dual effect on peripheral neurogenic inflammation, 219
- Suprascapular nerve block, 371 (letter)
- Surgical arteriovenous shunt, antebrachial nerve blocks for, 2
- Surgical trauma, and anesthesia type, cytokine response and, 470
- Sympathetic-mediated pain, subarachnoid clonidine for, 249
- Sympathetic nervous system, spinal anesthesia failure with clonidine, for transurethral resection of prostate, 419
- Test dosing, high spinal anesthesia after, 119
- Thermal stimulation, for evaluation of epidural anesthesia, 124
- Three-in-one block, for post-knee surgery analgesia, 287
- Thrombocytopenia, epidural analgesia in parturient and, 525
- Thromboelastography, for epidural analgesia in parturient with essential thrombocytopenia, 525
- Thromboprophylaxis, regional anesthesia and analgesia in, 503
- Tibial nerve block, by intrapopliteal posterior block, 601 (letter)
- Tissue coring, incidence with Quincke and Whitacre needles, 582
- Topical analgesia, comparison of EMLA application techniques for, 557
- Transesophageal echocardiography, for epidural space air infection assessment, 77 (letter)
- Transient radicular irritation, after spinal anesthesia, 26
- Transurethral resection of prostate, spinal anesthesia failure with clonidine, 419
- Trauma, surgical, protein metabolism modulation in epidural analgesia for, 430
- Triplet pregnancy, with preeclampsia and arachnoid cyst, epidural analgesia for, 592
- Tuohy needle, for spinal anesthesia in morbidly obese patient, 173 (letter)
- Urokinase, epidural hematoma after epidural anesthesia and, 342
- Urologic surgery, spinal anesthesia failure with clonidine, 419
- Vascular smooth muscle, ethanol effects on, 6
- Venous capacitance, changes in lower extremities during spinal anesthesia, 376 (letter)
- Vocal cord paralysis, labor analgesia/anesthesia and, 350
- Warfarin
 - central neural block and, 529
 - prophylaxis for epidural catheter removal, 517
- Whitacre needle
 - flow rate comparison, 378 (letter)
 - tissue coring incidence with, 582
 - versus other needles, *in vitro* comparison of fluid leakage after, 139
- Wound infiltration, of ketorolac versus intravenous regional anesthesia, 565
